

♥ Welcome to Kindergarten

What To Expect After Registration

A Welcome To Kindergarten (WTK) event is held at every school. Most schools hold their WTK in May or June and a few schools have their WTK in September.

At WTK families participate in activities using books, magnetic letters and numbers, arts and crafts, music and movement and games. Families meet school principals, Kindergarten teachers, school resource personnel and staff from community agencies. At WTK, every family receives a bag full of books, activities and parent information.

You will receive a WTK invitation when you register at your school, or through email or phone call after you register if your school has not yet chosen the WTK date.

In early August, every Kindergarten family will receive a Summer Package in the mail from their child's teacher. This package will contain a scheduled time for Kindergarten families to meet with their child's Kindergarten teacher one family at a time. (most schools meet with each family for 15 - 30 minutes) These meetings take place on the first few days of school in September and they give families and teachers a chance to share information and ask questions. The summer package also contains information about supplies and start dates. Kindergarten does **not** have the same start date as Grades 1 - 12.
