c) Items from Senior Administration Report:

Mr. Denis Labossiere, Secretary-Treasurer, spoke to the motions that would be coming forward later in the meeting. He noted that the motions for Capital Reserves take into account the advice received from the former Deputy Minister Gerald Farthing regarding the transfer of surplus funds into Capital Reserves to address short term and long term capital needs as appropriate. The Capital

Minutes Page 3 July 11, 2016

Reserve recommendations will reduce future budgets by \$262,500 beginning in the 2017-2018 budget year. Mr. Labossiere also noted that the recommendations will reduce interest costs by over \$60,000 and reduce funding capital needs in future operating budgets such as those required for a new school. He added that the Capital Reserve recommendations place the Division in a good position in the present and in the future.

2.06 Public Inquiries (max. 15 minutes)

2.07 Motions

86/2016 Mrs. Bowslaugh – Mr. Sumner

That the trip involving eighteen (18) to twenty four (24) Crocus Plains Regional Secondary School male and female environmental science and mathematics students in grades 9 to 12 to make a trip to Costa Rica from June 14 to June 21, 2017 be approved and carried out in accordance with Board Policy/Procedures 4001: Off-Site Activities.

Trustee Bowslaugh asked questions for clarification regarding grade 9 students attending. <u>Carried.</u>

87/2016 Mrs. Bowslaugh – Mr. Sumner

That the trip involving thirty-two (32) École secondaire Neelin High School male football students in grades 9 to 12 to make a trip to Kellogg, Idaho from September 14 to September 18, 2016 be approved and carried out in accordance with Board Policy/Procedures 4001: Off-Site Activities.

Trustee Kruck asked if this is an exhibition game. Mr. Greg Malazdrewicz, Assistant Superintendent, responded that it is a developmental/preseason game. It's an opportunity to go down and match up against the U.S. football system in terms of training and experience. It is also an opportunity for students to see if there are any post-secondary opportunities for scholarships should they wish to pursue football further.

Trustee Bowslaugh asked if there would be grade 9 students on this trip. Mr. Malazdrewicz responded that the students start into spring training prior to the end of the school year, so there may be grade 9 students attending.

Carried.

88/2016 Mr. Sumner – Mrs. Bowslaugh

That in preparing the 2017-2018 budget, the budget process will be amended to require all requests from Trustees for budget additions or reductions be made to the Office of the Secretary-Treasurer by October 31, 2016, and that individual Trustee requests shall then be integrated with Senior Administrative requests in the final list of preliminary budget and sustainability requests only after being reviewed and endorsed by an appropriate Committee of the Board.

Trustee Sumner added further information on the background of this motion. He noted that by bringing recommendations forward through an appropriate Committee, a Committee has an opportunity to look at a request and weigh it versus the Division's strategic planning and goals the Trustees have set for themselves. Trustee Sumner added that by going through a Committee, it will ensure that any request coming to the budget table has at least 2 out of 3 Trustees from a Committee supporting it. He indicated the timeline allows for more time available for Senior Administration to put together information related to the request.

Minutes Page 4 July 11, 2016

Trustee Kruck suggested a friendly amendment, which would add on that this does not prevent late budget requests from Trustees to be considered during budget deliberations.

Trustee Murray spoke on reductions and efficiencies and requested that Senior Administration, as the Division moves into this fall's budget, keep an eye on efficiencies and reductions that can save the Division money.

Trustee Bowslaugh noted that some requests that had not been vetted through a Committee, and had come out in the media, have the public believing that these items are automatically approved. She noted that the Board has to be very careful of the optics of the public.

Trustee Sefton spoke on the motion and the friendly amendment. He noted that if there is something of an emergent nature, such as a new roof needed for one of the schools, right away the Board would come up with a motion and budget line to deal with the situation. He asked that Trustees do not interpret the intent of the amendment as saying that there is no need to meet the deadlines. The purpose would be to allow for those emergent situations.

Trustee Ross asked if the amendment could include "in unusual circumstances". Trustee Sumner noted he did not think this addition would change how the process functions at present.

Trustee Kruck noted he was concerned with a request going through a Committee before the request can be costed out. He added that a Committee of 3 could kill a request before it is costed out.

Trustees Sumner, Murray and Bambridge responded to Trustee Kruck's concern.

Amended Motion:

That in preparing the 2017-2018 budget, the budget process will be amended to require all requests from Trustees for budget additions or reductions be made to the Office of the Secretary-Treasurer by October 31, 2016, and that individual Trustee requests shall then be integrated with Senior Administrative requests in the final list of preliminary budget and sustainability requests only after being reviewed and endorsed by an appropriate Committee of the Board. In unusual circumstances Trustees would be permitted to bring budget additions/reductions to the table on budget day.

Carried.

89/2016 Mr. Sumner – Mrs. Bowslaugh

That the tender from Genx Solutions in the amount of \$116,122.50 (plus applicable taxes) for the supply of 150 Laptop Computers funded from the 2016-2017 Computer Replacement Budget be accepted.

Carried.

90/2016 Mr. Sumner – Mrs. Bowslaugh

That the amount of \$1,000,000 from the Operating Fund Accumulated Surplus be allocated to the New School Capital Reserve Fund for additional costs associated with a new school that are not covered by the Province, subject to Public Schools Finance Board (PSFB) approval.

Trustee Sumner noted that because of the surplus this year, the Division is in the unique position to fully fund the New School Capital Reserve several years ahead of previously anticipated.

Carried.

91/2016 Mr. Kruck – Mrs. Bowslaugh

That the amount of \$150,000 from the Operating Fund Accumulated Surplus be allocated to the Ameresco Capital Reserve Fund to address deferred capital needs identified in the Ameresco Report, subject to Public Schools Finance Board (PSFB) approval.

Carried.

92/2016 Mr. Kruck – Mrs. Bowslaugh

That the amount of \$188,700 from the Operating Fund Accumulated Surplus be allocated to the Bus Video Surveillance Hardware Capital Reserve Fund for the installation of video surveillance on the bus fleet to enhance safety for students and staff, subject to Public Schools Finance Board (PSFB) approval.

Trustee Sumner noted that he does not see the need for the full bus fleet to be equipped with video surveillance.

Trustees asked questions for clarification and spoke for or against the motion.

Carried.

93/2016 Mr. Kruck – Mrs. Bowslaugh

That the amount of \$48,200 from the Operating Fund Accumulated Surplus be allocated to a Vehicle Capital Reserve Fund for the purchase of a van for the new electrician, subject to Public Schools Finance Board (PSFB) approval.

Trustees asked questions for clarification.

Carried.

94/2016 Mr. Murray – Ms. Bambridge

That the amount of \$120,000 from the Operating Fund Accumulated Surplus be allocated to a Johnson (DDC) Controls Capital Reserve Fund for the replacement of DDC Controls for the nine (9) air handling units at Vincent Massey High School, subject to Public Schools Finance Board (PSFB) approval.

Carried.

95/2016 Mr. Murray – Ms. Bambridge

That the amount of \$500,000 from the Operating Fund Accumulated Surplus be allocated to a Security Cameras and Card Access Capital Reserve Fund for the installation of security cameras, mirrors and card access/lock down in schools, subject to Public Schools Finance Board (PSFB) approval.

Carried.

96/2016 Mr. Murray – Ms. Bambridge

That the amount of \$54,500 set aside in the 2016-2017 budget for the Crocus Plains Kitchen Ventilation Project be redirected to pay for the Security Cameras and Card Access Project.

Trustee Ross clarified that the reason for this is that the cost for the Crocus Plains Kitchen Ventilation project is being covered by the Province.

Mr. Labossiere confirmed that initially there was no allocation of funds from the Province for the Crocus Plains Ventilation but on June 2, 2016, the Division received the allocation of funds for this project from the Province.

Carried.

97/2016 Mr. Murray – Ms. Bambridge

That the appointment of SNC Lavalin as Consultant for the Green Acres School - Heating System and Unit Ventilator Replacement Project, be approved, subject to Public Schools Finance Board (PSFB) approval.

Trustee Bowslaugh asked questions for clarification.

Carried.

98/2016 Mr. Murray- Ms. Bambridge

That the low Tender from Excel-7 Ltd. in the amount of \$3,282,100 (plus GST) for the Green Acres School Gymnasium Addition project be approved, subject to Public Schools Finance Board (PSFB) approval.

Carried.

99/2016 Mrs. Bowslaugh – Mr. Murray

That we hereby request that our Senior Administration examine the current programs/activities of the Division with an ongoing search for possible efficiencies/reductions during the 2017-2018 Budget process.

Trustee Bambridge asked if a motion is needed. Trustee Sefton noted that a motion is not required but it provides clear direction to Senior Administration.

Trustee Kruck and Trustee Sumner spoke in support of the motion.

Mr. Labossiere added that through the budget process, Senior Administration goes through the budget line by line and looks for reductions. Mr. Malazdrewicz indicated that Senior Administration always has ongoing conversations around reductions/efficiencies.

Carried.

MANITOBA SCHOOLS INSURANCE PROGRAM – JULY 2016 RENEWALS

For InformationD. Labossiere

The annual renewals for our insurance coverage under the Manitoba Schools Insurance Program for the year 2016-2017 have been received. Appendix A contains the Coverage Confirmation Binder, confirming our insurance renewal, and a chart comparing coverage and premiums between last year and this year. These policies provide property insurance, general liability insurance for protection from claim for bodily injury or damage to property of others, errors and omissions liability insurance for claims against the Division for financial damages, crime, accidental death and dismemberment for volunteer workers, and boiler and machinery insurance.

For the renewal term, values of insured schools and other property have been increased this year by 1.9% and the maximum Property Self Insured Retention Loss Pool has been increased from \$3,000,000 to \$3,250,000. The other areas of the insurance coverage remain the same.

The net increase in insurance costs for our Division is \$15,244.82 or 5.9% over last year's costs for a total cost of \$275,313.21. Please contact me should you have any questions or have them discussed at the Board meeting.

3. Manitoba Education and Training

The Kindergarten to Grade 12 Framework for Continuous Improvement (CIF) comes out of recent performances on National and International assessments and a desire to increase student achievement in the areas of literacy and numeracy, and in particular for Aboriginal students.

Other reports by the Truth and Reconciliation Commission of Canada, the Manitoba Centre for Health Policy and the Manitoba Office of the Auditor General have all called for a strong focus on student achievement data and educational outcomes for the province regarding Aboriginal students and children in care.

Two components of CIF:

- planning; and
- reporting.

Planning Component

- Plan details clear outcomes, sequence and timelines, roles and responsibilities, monitoring systems
- Utilize provincial baseline data
- Plans to enhance instructional leadership
- Describe how stakeholders were involved in the school division plan. Plans must be posted on school division websites by October 31, 2017

Reporting Component

- School division profile
- Website link to most current school division plan
- Reports on literacy and numeracy
- Reporting on specific grants

Reporting to the Department must be complete by June 15 in the 2017/2018 school year.

4. SCHOOL DIVISION NEWSLETTER

For Information Dr. Casavant

As of October 1, 2016 a Divisional newsletter will be circulated to all Brandon School Division employees, key community groups and stakeholders. An electronic copy will be posted on our website. This will require a Board submission of its previous months' engagement with Manitoba Education and Training, MLA's, Manitoba School Boards Association, public and community in key areas.

Brandon School Division Chairperson of the Board 1031 6th Street Brandon, MB R7A 4K5

Appendix 'A'

Dear Sir:

I received my municipal tax bill Friday July 15th and I am still livid. I live in the Municipality of Cornwallis.

The total tax bill before the \$700.00 school tax rebate reads as follows: Net Municipal Taxes \$1249.64 School Division Taxes \$2846.79

I would like to discuss where this \$700.00 rebate comes from. In my mind I am sure that in some manner the taxes I have already paid are paying this rebate. So, if this assumption is true, then this rebate is just a way of making us feel that we are getting a break when in reality we are being paid off with our own funds.

With regard to the school division taxes, only one third of my tax dollars are being used to run a whole municipality, but it takes two thirds of my tax dollars to run the Brandon School Division. There is something terribly wrong here. This is ridiculous!

The municipality can look after roads, landfill, policing, run an office and perform all other duties that are required of the municipality for one third of what the Brandon School Division expects us to contribute.

We are senior citizens living on a fixed income. If we need something, we save our money to pay for it and only then purchase it. The Brandon School Division needs to do the same. The taxpayer isn't a bottomless pit. There is a breaking point for everyone.

I have issues with the following:

Wages totally out of control for school board officials.

Students that graduate high school that do not know how to do math or count change.

Students that graduate high school that do not know how to read and understand what they have read.

Students that graduate high school that do not know how to write legibly.

The no fail policy in our schools.

With regard to the no fail policy in our schools, who is fooling who. A few years ago, I had a Grade Eight student say to me: "I passed, I wasn't promoted." So, the argument that no student should feel

inadequate because they are unable to pass a grade is just a feel good argument as far as I am concerned. The students, even the ones who are promoted, know what is going on, and probably most of those promoted students know how to play the system.

I am enclosing an article from the Brandon Sun, Tuesday September 15, 2015. This article says that the Brandon School Division Superintendant states that 35% of students in Grades 3 to 4 are below grade level in reading, and 48% of those students are below grade level in numeracy skills. It goes on to say that less than 1/3 of grade 7 students are meeting numeracy levels. She began the interview by saying that she was pleased with the school division's student achievement results for the year. Low expectations net low results.

Something needs to improve here.

Student scores need to improve greatly.

Teachers should be teaching basic skills (reading, writing and arithmetic)

School Boards need to cut their spending dramatically.

A good first option would be to get wages in line with those of the average Manitoban. A good second option would be to set much higher standards for the students.

If students are pushed forward to a higher grade before they are prepared for that higher grade they can not excel in the higher grade.

Instead of students feeling good because they have circumvented the system and achieved the necessary result, they should feel good because they have worked hard and earned the grade by spending the necessary time and energy to do so.

As a taxpayer in Manitoba I am disgusted with the system. We spend more, we receive less.

Yours truly,

Fairlie Parker

Mixed results for BSD students

Despite results that suggest some students in the Brandon School Division are struggling in the areas of literacy and math, Brandon School Division Supt. Donna Michaels says she is pleased with the division's student achievement results for the 2014-15 school year.

"I'm very happy. I've watched this grow and develop for 15 years now in the division. I'm really pleased with what the schools are doing to promote and monitor student achievement on an ongoing basis," Michaels said.

Numbers presented to the BSD board Monday night showed that 35 per cent of students in grades 3 and 4 are below grade level in reading, and 48 per cent of students in grades 3 and 4 are below grade level in numeracy outcomes. Less than one third of students in Grade 7 are meeting grade level expectations in numeracy outcomes.

Michaels says that while students in some areas are showing low test scores, overall student achievement in the division is improving.

"I think the low scores are decreasing ... but there's always going to be scores at the low end because not all of our students can achieve at the same level," Michaels said. "We work towards the same standards, but achieving at the same level would be impossible."

Michaels said the division constantly monitors student achievement, and works with individual schools to improve

"There may be an area where achievement is lower, so we ask schools to go into the results and look to why that is so. It could be students aren't getting it instructionally and we have to change our methodology," Michaels said, adding that the division also employs eight specialists who work with teachers to improve levels of student achievement.

Certain curriculum, for example, could be giving students difficulty and might need to be adjusted. Michaels said, pointing to the low Grade 7 math scores as an example.

"Some students at the Grade 7 and 8 level, they're just beginning to think abstractly. So not all students at that level are going to achieve at the same level or pace."

BSD board chair Mark Sefton was a little less glowing about the numbers, pointing to areas in the assessments that show a need for improvement.

"We're seeing areas where things are improving, but it also points out that there areas where also shown in the achievement that there would likely be "Twitter: @eric_bellmb

we need to do a bit of extra results. Students who attended discussions on expanding the work." Sefton said.

Sefton said that throughout his four years as board chair he has seen improvement in the test particularly assessments of literacy and numeracy.

"That's something we need to continue to do," Sefton said. "Without those core skills students will be handicapped in social studies, science and everything else."

The effects of all-day kindergarten on students were numbers were good to see, and

kindergarten all dav saw a greater increase in phonological expectations (an assessment of motor skills, literacy and numeracy) compared to those who only went to school for a half day. For example, while seven per cent of half-time students were using scissors by the end of the school year, the same was true for 25 per cent of the students who went to kindergarten all dav.

Sefton said that those

program during next year's budget consultations.

Although certain grade levels do not meet expectations in literacy or numeracy, the majority of students in the division met or exceeded the average scores provincewide.

"We're happy that that's the general trend, but that's no reason to rest on our laurels," Sefton said. "We still have areas of challenge, and we need to put more focus on those."
