Ms. Susan Gilleshammer, Assistant Superintendent – Student Achievement Support Services

September 12, 2021

Manitoba public health officials have advised of at least one confirmed case of COVID-19 in Vincent Massey High School in a Grade 12 Classroom and on School Bus Yellow 4 and Red 5, on September 9 and 10, 2021, when the individual may have been infectious. **The infection is not believed to be acquired at school.**

The school is working closely with public health officials and is following their recommendations. Close contacts have been identified and are advised to self-isolate along with their household members.

If you have not been contacted by the school stating your child is a potential close contact and a public health official has not contacted you, your child has not been identified as being exposed to COVID-19 from this case. If your child has not been identified as a close contact, public health officials still recommend that you closely monitor your child for symptoms of COVID-19.

Brandon School Division will continue to work closely with Public Health and Manitoba Education during this pandemic.

Sincerely,

Mr. Mathew Gustafson
A/Superintendent/CEO
