The Brandon School Division accepts responsibility to foster and maintain a safe school environment for its students, staff, and community. To this end, discipline, especially self-discipline, is regarded as an integral part of every student's education. Discipline should teach students to understand the commonly accepted values essential to the well-being of the individual and society and to accept responsibility for the consequences of their actions.

The Division accepts its responsibility to implement effective measures to deal with inappropriate behaviours by students. This includes the establishment of preventive procedures, provision for appropriate early intervention strategies and the administration of disciplinary action such as is appropriate under the authorities

granted by the [Public Schools Act](#), the [Education Administration Act](#), [The Safe Schools Charter](#) and their regulations, Division administrative procedures, and other statutes such as the [Youth Criminal Justice Act](#).

Students are expected to practice appropriate behaviour at all times. Principles such as positive self-esteem, individual and social responsibility, respect for property and the rights and values of others shall form the foundation for appropriate behaviour. When behaviour is inappropriate, discipline should assist students to understand the fundamental values essential to the well-being of both the individual and society, and to accept the consequences for their actions. Schools in turn will develop effective disciplinary strategies including the teaching and modeling of appropriate behaviour and the provision of consequences which reflect the nature and severity of the behaviour.

To support this Administrative Procedure, schools will develop and implement a code of conduct consistent with the objectives of this Administrative Procedure, which will be reviewed annually.

A school's code of conduct must include:

- a statement that pupils and staff must behave in a respectful manner and comply with the code of conduct;
- a statement that the following are unacceptable:
 - bullying, or abusing physically, sexually, or psychologically —verbally, in writing or otherwise — any person;
 - discriminating on the basis of any characteristic set out in subsection 9(2) of [The Human Rights Code](#);
 - using, possessing or being under the influence of alcohol or illicit drugs at school.
- a statement that the following will not be tolerated on school sites:
 - gang involvement;
 - possessing a weapon, as "weapon" is defined in section 2 of the [Criminal Code \(Canada\)](#).
- a statement that pupils and staff must adhere to school policies respecting appropriate use of electronic mail and the Internet, including the prohibition of accessing, uploading, downloading or distributing material that the school has determined to be objectionable;
- the disciplinary consequences, in as much detail as is reasonably possible, of violating the code of conduct, and the process for appealing disciplinary decisions.

The Division authorizes the Superintendent/CEO or designate in such incidents to withhold the right of that student to attend school until such time as the Division can consider the matter and determine appropriate action. The Board authorizes the Superintendent/CEO or designate to investigate the circumstances of the suspension. If resolution is not achieved, the Board will hear any appeals and determine whether the suspension shall stand, be modified and/or expunged from the student's record.
- The Board will receive at each regular meeting, as an information item, a summary report of any suspension of three days or more.
- The Division recognizes that violence in society, including the inappropriate activities of individuals, youth gangs and groups in our schools or on school property, and the presence and/or use of weapons, is detrimental to the educational process and impairs the health and welfare of its students and staff. Schools shall develop plans (using Division Administrative Procedure [Risk Response](#)) for responding to potentially dangerous situations involving intruders (see section D2 – Emergency Procedures). Prevention Activities

Promoting and Ensuring a Positive School Environment

- Staff, in partnership with School Leaders, will design activities to promote a positive atmosphere. A positive school climate includes the physical environment, the social/emotional environment, and the learning environment. All of these areas will contribute to the development of a

- school that values all students, supports diversity, encourages mutual respect, and provides a safe and caring school atmosphere.
- Division staff will encourage participation in activities that will promote safe environments in all schools.
 - At the beginning of each school year, School Leaders will review and if necessary amend the site-based Code of Conduct to facilitate the implementation of this Administrative Procedure.
 - Schools will ensure that entry doors and foyers provide a welcoming atmosphere through clear directional signs and displays.
 - School Leaders will encourage all staff to be active and visible in the school.
 - Students with a record of inappropriate behaviour, violent activity, or who have been found in possession of weapons, and who wish to transfer from one school to another will be identified to the receiving School Leader and the Superintendent/CEO or designate.

Appropriate Clothing / Accessories

In establishing and providing for respectful, safe and secure school environments, the wearing of appropriate clothing by students is an important factor. Students are expected to wear appropriate clothing in the school at all times during the school day. Students will be asked to cover up or, if possible, remove inappropriate clothing.

Appropriate clothing is that which is acceptable to the established norms of the school community, staff and school administration. Appropriate clothing is free from:

- inappropriate words, phrases and images;
- being sexually explicit or revealing in nature;
- inappropriate accessories that may cause potential harm to self and others.

Headgear is to be removed when entering the school during the school day. Headgear includes hats, toques, bandanas and hoods. Headgear, related to medical or program requirements, may be permitted in designated areas by permission of school administration. Headgear worn in recognized religious observations may be approved through consultation with parents and administration.

Concealing clothing and accessories includes school bags. Containers such as backpacks, large bags, and gym bags that are not required immediately for physical education must remain in lockers or other designated areas.

Outerwear such as large, bulky jackets and trench coats are not to be worn in the school building during the school day. Outerwear is to be removed and left in student lockers or other designated areas.

Self Identification

- Any student(s) or person(s) in the school building shall identify themselves immediately when asked to do so by any staff member. Failure to do so will result in disciplinary action being taken and/or the police being called and the person(s) being removed and/or charged accordingly.
- Face painting will only be allowed in conjunction with school programming.

Student Programs

- Violence prevention program will be offered to all students.
- Schools, in cooperation with community partners, should promote training in safety awareness and in emergency response skills, including information about whom to contact in emergencies and/or where to go for help.

Supervision of School-Sponsored Activities

- Guidelines for supervision will be developed by individual schools to ensure the safety of staff and students at school-sponsored activities; these guidelines will be consistent with the school's Code of Conduct.
- School Leaders shall have authority to deny entry to school-sponsored activities to students whom they know have a record of violent activity, or who have been found in possession of weapons, or who have been suspended from school.

Staff Awareness

In cooperation with various community organizations, in-service programs will be offered as deemed necessary for employees on the variety and complexity of violence-related problems in schools. These programs may include: the dynamics of dealing with youth gangs and groups; emergency response skills for students and staff; directions on how to handle trespassers or intruders in the school; and conflict management and resolution.

Parents/Guardians

Every effort will be made to include parents/guardians as partners in their child's education. Parents/guardians will be involved in schools in a meaningful and cooperative manner. Parents/guardians must be viewed as key partners in the development of responsible, tolerant, and creative citizens.

Community Assistance/Liaison:

Schools will be encouraged to develop, maintain and strengthen their working relationships with various community organizations in an effort to promote a positive school-community climate.

Intervention Procedures

Regular Discipline Procedures

The Division believes that discipline is a teaching process designed to create positive behavioural alternatives for students. Discipline is practiced to meet the needs of the students in situations as they develop. The nature and severity of consequences will vary based on seriousness/nature of the behaviour, age level, history of the student, and other relevant factors.

Logical consequences are the preferred tools of discipline. Some of the possible consequences are:

- informal interview
- guidance involvement
- formal interview
- mediation
- parental involvement
- official warnings
- detention of student
- withdrawal from classroom setting
- removal of privileges
- restitution
- behavioural/performance contract
- student achievement support services/clinical services involvement
- outside agency involvement

Additional consequences may be considered, such as:

- suspension (in-school or out-of-school)
- voluntary exclusion
- expulsion (see page 11- Withdrawal of School Attendance Privileges)

Emergency Procedures

All staff and students have a responsibility to contribute to the provision of optimum safety and security for the school. To achieve this objective, all staff and students will cooperate in communicating issues and problems promptly and efficiently to the School Leader or designate.

- a. If staff or students believe that a student or visitor represents a danger to the security of the school, they will immediately notify the School Leader or designate.

- b. In an emergency situation where staff believe that the behaviour of the student/visitor represents imminent danger, they will obtain police assistance immediately and notify the School Leader or designate immediately.
- c. School Leader, if deemed necessary, will draw on in-school and Divisional support staff to respond to the incident.
- d. Upon investigation, the School Leader, if deemed necessary, will inform the Superintendent/CEO or designate.

Withdrawal of School Attendance Privileges

When regular discipline procedures (as described in Section D.1 – Regular Discipline Procedures) are insufficient to bring about positive change in a student's inappropriate behaviour, or where some separation is considered advantageous for reasons of safety, cooling-off, or maintenance of school discipline, the Division will consider suspension or voluntary exclusion as additional measures to assist in successful resolution of situations, or as a last resort, expulsion of the student.

Suspensions

a. School Leader's Authority to Suspend

The School Leader may suspend a student for conduct injurious to the welfare of the school. For purposes of this policy, conduct injurious to the welfare of the school may include, but is not limited to:

- assaultive behaviour
- drug and alcohol use
- inappropriate behaviour

The School Leader has the authority to suspend a pupil who persists in conduct injurious to the welfare of the school for a period not to exceed 5 school days. The School Leader, with the approval of the Superintendent/CEO or designate and in keeping with the provisions of this Administrative Procedure, has the authority to suspend a pupil who persists in conduct injurious to the welfare of a school for a period not to exceed 30 school days.

No suspension shall exceed 30 school days in total.

The Board of Trustees may expel, on the recommendation of a School Leader through the Superintendent/CEO or designate, a pupil considered guilty of conduct injurious to the welfare of a school.

b. Notification of Suspension

Notification of all suspensions shall be made verbally by phone or home visit and followed by letter to both the student and to the parent/guardian if the student is not an adult. This letter shall contain the following information:

- duration of suspension
- beginning and ending dates of suspension
- conditions of suspension
- reason for the suspension
- date of re-entry meeting with student (and parent/guardian if deemed necessary)
- the right of the student, if an adult, or the parent/guardian to appeal a suspension in writing
- the names of the persons to whom copies of the letter are being furnished

All suspensions of three or more days shall be copied to the Superintendent/CEO or designate and the School Attendance Officer.

c. Appeal of Suspension

If an appeal is launched, it must be done in writing to the Superintendent/CEO within 48 hours of the verbal notification of the suspension. The student will be required to remain out of school until the appeal is satisfied, but throughout this period, will be provided with assignments upon parental request, the results of which shall be furnished to the school.

Suspensions may be appealed to the Superintendent/CEO. Suspensions from 1 to 5 days can be appealed on process and to be expunged from the record.

Student safety will be a priority and if the School Leader or Superintendent/CEO or designate deems it unsafe for a student to return to school, an alternative program may be provided.

An appeal against a suspension shall be directed by the Superintendent/CEO, who shall determine which member of the Office of the Superintendent/CEO will, in consultation with the schools, investigate the circumstances leading to the suspension and appeal. Parents/guardians or adult students will be advised when the appeal will be considered.

If the appeal is not resolved at the staff level and the parent/guardian, or the student if an adult, decides to request a formal appeal to the Board, the Superintendent/CEO or designate will prepare a report on the case and arrange for its presentation at an in-camera session of the Board. The student,

parent/guardian and School Leader of the school that the student attends shall be informed of the date and time of the in-camera Board meeting and shall have the right to attend and address the Board. The notice will indicate that if the party notified does not attend, the Board may proceed and the party will not be entitled to any further notice of the proceedings. A request by a parent/guardian, or a student where he/she is an adult, to have the case presented by legal counsel shall be granted.

The Board will hear the appeal within thirty days of receiving the formal written request.

Voluntary Exclusion of Students

The School Leader shall have the authority to negotiate a voluntary exclusion with the parent/guardian if a student is under the age of 18 years or with the student if the student is 18 years or older. Supporting documentation must clarify the agreed upon arrangement.

Re-admission to the school of the voluntarily excluded student shall commence immediately following the agreed upon exclusion.

Expulsion

After all other avenues for discipline have been implemented without success, including those procedures identified on page 10, Regular Discipline Procedures, and the student's continued presence in the school system clearly endangers the safety of other students and staff, or results in the learning environment being continuously destroyed, a recommendation for expulsion may be considered.

Expulsion is a very serious matter. Since only the Board may expel, when such circumstances do prevail, the School Leader may decide following consultation with the Superintendent/CEO or designate, to exercise the prerogative of suspending a student until such time as a recommendation for expulsion may be dealt with. The actual recommendation for expulsion shall be made through the schools to the Superintendent/CEO and to the Board.

A recommendation for expulsion shall be referred to the Superintendent/CEO or designate who shall be responsible for preparing a complete report on the circumstances underlying the need for such action. The Superintendent/CEO or designate shall ensure that appropriate arrangements are made for the Board to hear the recommendation for expulsion at an in-camera session, and shall communicate the date and time to members of the Board and to the parent/guardian and/or the student in the event that the student is an adult. Notice of the Hearing for Expulsion shall advise of the right of the pupil, where he/she is an adult, and otherwise of their parent/guardian, to make representations when the recommendation is to be considered, and of the right to be represented by counsel; and shall include a copy of the report as prepared by the Superintendent/CEO or designate.

At the Hearing, the Board sits as a tribunal and therefore must be impartial. Parties to the Hearing are the student and/or the parent/guardian on the one side and the officials who made the recommendation (School Leader and Superintendent/CEO or designate) on the other. Hearings will normally be scheduled during an in-camera session of the Board. However, the Hearing may be held in public in some circumstances at the discretion of either the Board or the parent/guardian or student when the student is an adult. In any event, the final decision shall be made in public.

The decision of the Board shall be achieved in the normal majority voting process and shall be circulated forthwith among the parties to the action, the School Leader and teachers involved in the case.

Notwithstanding a motion for expulsion, the Board at its discretion may re-admit a student who has been expelled.

Disciplinary Responses

The following disciplinary responses are intended to apply to K-12 students. The School Leader may use discretion in applying disciplinary actions for children in Early Years. The severity and frequency as well as the student's ability to understand the process and consequences of their actions should be considered in the disciplinary response.

Depending on the situation, and in consultation with the Superintendent/CEO or designate, the School Leader may:

- report the instance to the police; and/or
- recommend the student be referred to Student Services personnel, participate in a counselling program; and/or
- consider an alternative learning placement for the student with the approval of the Superintendent/CEO or designate; and/or
- recommend the student be expelled.
