

Promoting and Ensuring a Positive School Environment

- Staff, in partnership with the School Principal or designate, will design activities to promote a positive atmosphere. A positive school climate includes the physical environment, the social/emotional environment, and the learning environment. All of these areas will contribute to the development of a school that values all students, supports diversity, encourages mutual respect, and provides a safe and caring school atmosphere.
- Division staff will encourage participation in activities that will promote safe environments in all schools.
- At the beginning of each school year, the School Principal or designate will review and if necessary, amend the site-based Code of Conduct to facilitate the implementation of this Administrative Procedure.
- Schools will ensure that entry doors and foyers provide a welcoming atmosphere through clear directional signs and displays.
- School Principals or designate will encourage all staff to be active and visible in the school.
- Students with a record of inappropriate behaviour, violent activity, or who have been found in possession of weapons, and who wish to transfer from one school to another will be identified to the receiving School Principal or designate and the Superintendent/CEO or designate.

This brochure is intended to provide a brief summary of Administrative Procedure 2005: Student Code of Conduct. The entire Administrative Procedure may be obtained from individual schools, the BSD Administration Office, or viewed on the BSD website.

Staff Awareness

In cooperation with various community organizations, in-service programs will be offered as deemed necessary for employees on the variety and complexity of violence-related problems in schools. These programs may include: the dynamics of dealing with youth gangs and groups; emergency response skills for students and staff; directions on how to handle trespassers or intruders in the school; and conflict management and resolution.

Parents/Guardians

Every effort will be made to include parents/guardians as partners in their child's education. Parents/guardians will be involved in schools in a meaningful and cooperative manner. Parents/guardians must be viewed as key partners in the development of responsible, tolerant, and creative citizens.

Community Assistance/Liaison

Schools will be encouraged to develop, maintain, and strengthen their working relationships with various community organizations in an effort to promote a positive school-community climate.
